PROFESSIONAL PROFILE

Computer Systems Engineer graduated from TESCOI (January 2026) with experience building functional web systems through real projects. I have built solutions used by a private company, an institutional environment, and a freelance clients, participating in the full development cycle: from database design to production deployment. Proficient in PHP, JavaScript, Python, MySQL and MongoDB, focused on backend development and web applications.

TECHNICAL SKILLS

Languages:PHP · Python · JavaScript · HTML5 · CSS3 · SQL

Databases:MySQL · MongoDB

Frameworks / Lib.:AngularJS · Bootstrap

Tools:Git · GitHub · VS Code · XAMPP

Concepts:REST APIs · OOP · JWT Authentication · MVC · CRUD · Scrum

Applied AI:Claude (Anthropic) · GitHub Copilot — debugging, code review & optimization

Languages:Native Spanish · Advanced English

PROJECTS — Production Systems

Enterprise Web Client Management System — Garza Gas

Sep 2025 – Jan 2026

Stack: PHP · MySQL · JavaScript · HTML5 · CSS3

- Built from scratch an internal system that digitalized the complete client registration and lookup workflow, eliminating manual records.
- Implemented secure authentication with session control and a full CRUD module for record administration.
- System delivered to production and actively used by the company's operations team.

Vehicle Fleet Management Platform — TESCOI (Materials Dept.)

Mar 2025 – Jun 2025

Stack: PHP · MySQL · JavaScript · HTML5 · CSS3

- Developed a web platform officially adopted by the TESCOI Materials Department for institutional trip management.
- Integrated an interactive calendar with real-time status tracking, replacing paper-based follow-up.
- Solo developer on the project; delivered on schedule and in continuous use.

Website with Admin Panel — Nutrition Intelligent (Freelance)

Feb 2026

Stack: PHP · MySQL · JavaScript · HTML5 · CSS3 | ognutricionentrenamientointeligente.com.mx

- Designed and developed a complete platform with secure login and user administration panel for a real client.
- First freelance project delivered to production — currently live.

EDUCATION

Computer Systems Engineering

2021 – 2026

Tecnológico de Estudios Superiores de Cuautitlán Izcalli (TESCI) · Graduated January 2026 · Degree in progress
